Notes:

MODEL #107B-HD

Features and Benefits

Unique 8-Blade Mix Paddle:

- Pushes product downstream when run clock wise, pushes upstream when drive is reversed
- All welds are 100% ground and polished
- All product contact surfaces easily cleaned and inspected

High Quality Extended Tee Housing:

We use only the best quality housings built to our specifications.

- Ferrules welded at a 90.0 degree angle on both ends
- Perfect fit ensures consistent mixing day in and day out

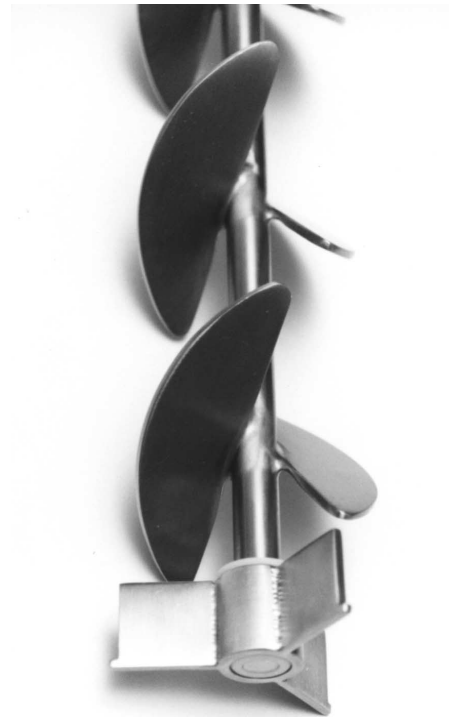

Guide Bushing at Discharge End:

The mix paddle is supported at both ends to assure proper alignment.

- Provides more consistent mixing
- Impossible for mix blades to contact blender housing

Same Day Repair Service:

If you do have a problem with one of our variegators, send it back and we will repair it the same day.
