MODEL #108V

Features and Benefits

Unique Easy-Clean Injector Design:

- No hard to clean unsanitary dead-ends with our injectors
- You can see through and/or brush through all of our injector tubes
- All product contact surfaces easily cleaned and inspected

High Quality Variegator Tees:

We use only the best quality tees built to our specifications.

- Ferrules welded at a 90° angle on both ends keep patterns in line
- Perfect fit assures consistent patterns day in and day out

Interchangeable Plastic Injector Nozzles:

These high quality nozzles are built to our specifications.

- High quality sanitary construction
- Extensive research and testing guarantee distinctive patterns
- Available in one, two, three and four leg designs

Same Day Repair Service:

If you do have a problem with one of our variegators, send it back and we will repair it the same day.
